SAI KIRAN

Senior Multimedia Designer

With over 12 years of experience in design and animation, I specialize in creating innovative visual content that combines artistic vision with technical expertise. My background spans top advertising agencies, tech, real estate companies, where I've led the development of high-quality, internationally recognized designs. I excel in utilizing AI-generated imagery, 3D animation, and motion graphics to craft compelling stories and enhance production quality. Passionate about optimizing workflows and mentoring teams, I focus on efficiency, problem-solving, and delivering exceptional results across a variety of media, from social content to packaging and web design.

WORK EXPERIENCE

Sr. Multimedia Designer

DAMAC Group, Dubai, UAE

November, 2024 - present

Responsibilities:

- Lead the creation of engaging and innovative stories and mockup videos, from concept development to storyboard creation, utilizing AI-generated images and videos for enhanced production quality.
- Conduct in-depth research on scientific concepts to optimize product efficiency and incorporate cutting-edge advancements into design processes.
- Oversee and mentor colleagues, ensuring efficient workflow and the simplification of processes to improve team productivity and project delivery.
- Design and produce high-quality 3D animations and motion graphics, combining creativity and technical expertise to deliver luxurious visual content.
- Manage the development of architectural 3D renders, ensuring alignment with video and film production requirements for seamless integration into final outputs.
- Collaborate with and provide strategic advice to third-party marketing agencies, guiding the creation of impactful social media content that aligns with brand vision and audience engagement goals.

Sr. Motion Designer
